***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-56, drawn to information carrier, classified in class 428, subclass 195.1.
  - II. Claims 57-103, drawn to method of making, classified in class 427, subclass 243.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product as claimed can be made by another and materially different process (e.g., providing a base sheet, coating a composition on the base sheet to form a porous receiving layer, printing on the porous receiving layer, forming a pattern of varnish on the printed receiving layer by printing, spraying or jetting followed by curing, providing a film comprising a cured lacquer, laminating the film onto the varnish side of the base sheet).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. A telephone call was made to Joseph T. Guy on 09/28/2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1774.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
